Digital tools for sustainable development

SBIR Challenge / Cork

- Cork County Council sought low cost, innovative and accessible solutions that will **help all of its older citizens to maintain a good quality of life** and enable them to remain and feel secure in their home.
- Solutions sought should address one or more of the **effects of being / feeling isolated and insecure** and in particular increase the resilience of older people to respond to the impacts of critical events.

Key Features

**KNOWLEDGE
SHARING**

**CONNECTED
CARE**

**OPEN
INNOVATION**

SBIR Process / Phase one

Phase two

- **Six month pilot project** developing software and testing Lora IoT networks
- Partnership with **Cork City Partnership's Friendly Call services** who support 190 older people each week.
- Project will integrate with existing **age friendly programmes**.
- **Seeking additional partnerships** and pilot locations to scale the project nationally.
- **SBIR presented the perfect platform to:**
 - engage with local authorities and the HSE
 - support an ageing population
 - position the company for export markets
