OUR CLIMATE & WATER AMBITION

Strategy 2025 a step towards sustainability

6 CLEAN WATER AND SANITATION

*We will half our own water consumption by 2025.
By 2030, we have contributed to provide safely managed drinking water to 300 million people in need. In addition, through water-efficiency and water-treatment we have saved the consumption of 50 billion m³ of fresh water.*

13 CLIMATE ACTION

We will reduce our own CO₂ emissions with 50% by 2025. By 2030, we aspire towards "climate positive"
