peace of mind through insight

“As a technology company, it has been invaluable to get to speak with clinicians who work daily with geriatric patients. Their feedback has helped us to hone the product, to focus on features that maximise an older person’s potential to live independently in their own home.” – Feargal Duignan, CEO

“Working on this pilot raised the profile of Wellola in the UK, and we subsequently were awarded a contract with the British equivalent of the IACP, the British Association of Counsellors and Psychotherapists to offer their members our platform.” – Sonia Neary, CEO

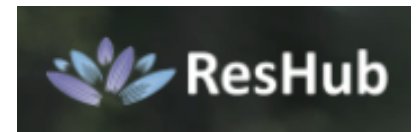

Prime makes it easy and fun for older people to exercise safely at home to move better and keep independent.

Supports

- Clinical Access
- Make Connections
- Feasibility / Focus Groups / Pilots
- Ethics Applications
- Project Management
- Independent Report
- Webinars
