

SMART D8

A Smart Dublin District

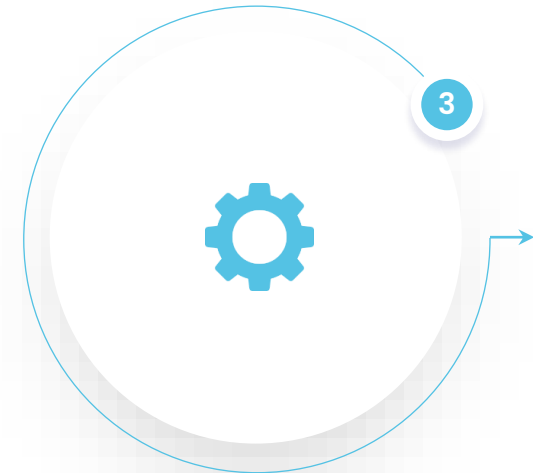

WORK TOGETHER TO TRANSFORM THE HEALTH AND WELLBEING OF OUR CITIZENS

Build and develop a sustainable & collaborative ecosystem that integrates healthcare, academia, government, industry and citizens.

Develop the Smart D8 district as a world-class smart health and wellbeing demonstrator where innovative technologies and services can be piloted in the community.

Facilitate and support the development & delivery of the Health Innovation Corridor which will be anchored in Dublin 8.

SMART D8
HOW WE DO IT?

Identify and support innovation that meets the needs of citizens.

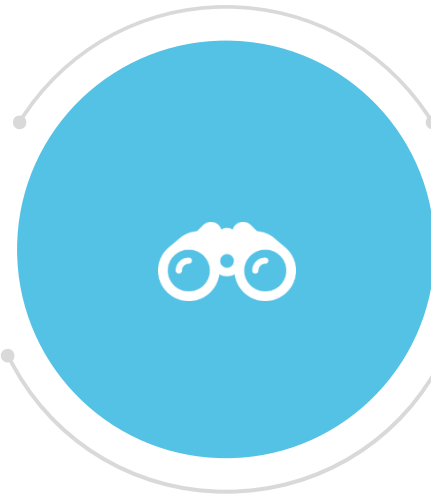

Accelerate the delivery of innovation into the community.

Break down silos and maximise the impact of collaboration.

Influence local and national policy.
